

# Digital Literacies Project

## Project details:

- Read through the following [power point presentation \(ppt\) given by Dr Ribble about Digital Citizenship and Digital Literacies.](#)
- After reading through the power point (ppt), create your own version of the ppt based on your perspective of the 9 Elements of Digital Citizenship.
- Clearly identify the 9 Elements of Digital Citizenship with clear definitions and examples throughout the project. Explain why everyone should learn about each element. Why is each one important? Include **2-3 slides on each element**.
- Include sub-headings clearly showing which element you are discussing in your project.
- Ensure that there are evident aspects of [typography](#) and design such as font, colour, line, shape etc. (Refer back to unit 4.)
- Be creative. Include topic related visuals, images, charts etc.
- Include interesting facts.
- You must find a minimum of nine sources that demonstrate your understanding of each of the nine elements. You must make sure that you cite all of your resources at the end of the project.

## Presentation formats may include:

Prezi Presentation – If you use this format, copy your completed project link into a word document and submit the word document into the assignment folder. Note: It must be the “shared link”, or your teacher will not be about to open your prezi.

Power point or google slides

Contact your teacher to approve an alternative tool that is not listed here.

## Rubric:

Use the Project Rubric to help guide your project. Make sure that you have addressed all of the required project details outlined above.

When you have finished your project, add it to the Digital Literacies assignment folder. Label your project as follows: OnlineProject(your surname). Eg. OnlineProjectBauer
