

Unit 3

Name: _____

Date: _____

Reader's Notebook

Reflect on Your Reading

Before Reading

Body System or Organ	
What it looks like	
How it works	
How to keep it healthy	

During Reading

1. Do you think learning about body systems is important? Why or why not?

--

2. What ideas would the fast food restaurant owner want to give the reader?

3. What would they need to say to make a convincing argument?

4. What are some things that they would leave out and not tell you? Why would they leave these facts out?

5. What would they gain by convincing you?

6. Whose viewpoint would seem threatening to them?

After Reading

1. Where do you find explanations about science topics?

2. What kinds of science topics do you like to read about or view?

3. What are some features of explanations that keep you interested in reading?

4. What details do you remember best from the readings about body systems? Why do you think that is?

5. How did including **cause and effect** relationships in your summary help you to better understand the information?

6. How can summarizing these relationships help you to read other information?
