

Practice – Part 1

Instructions: Answer each of the following practice questions on a separate piece of paper. Step by step solutions are provided under the Solutions tab. You will learn the material more thoroughly if you complete the questions before checking the answers under the Solutions tab in Moodle.

1. Complete the table below.

Triangle	Classify with regard to angle measure. Hint: Is the triangle acute, obtuse, or right?	Classify with regard to side length. Hint: Is the triangle equilateral, isosceles, or scalene?	State the angle measure if any of the angles in the triangle are equal.

2. Find the missing angle in each triangle.
