

Practice – Part 1

Instructions: Answer each of the following practice questions on a separate piece of paper. Step by step solutions are provided under the Solutions tab. You will learn the material more thoroughly if you complete the questions before checking the answers under the Solutions tab in Moodle.

1. Find the matching pairs. State the side that is opposite each angle in $\triangle DEF$.

2. Find the matching pairs. State the angle that is opposite each side in $\triangle XYZ$.
