

Practice – Part 2

Instructions: Answer each of the following practice questions on a separate piece of paper. Step by step solutions are provided under the Solutions tab. You will learn the material more thoroughly if you complete the questions before checking the answers under the Solutions tab in Moodle.

1. Find side length AB using the cosine law. Express the answer to 1 decimal place.

2. Find side length x using the cosine law. Express the answer to the nearest tenth.
