

Unit 3

Name:

Date:

Reader's Notebook: Food Chains

Questions for Food Chains

Write your responses to the questions below.

Grasslands:

1 Here are my questions:

2 What are the three grassland habitats called?

3 How are the food chains similar in each habitat?

4 What pictures help you understand the food chains?

5 What details made the reading interesting?

Woodlands:

1 Here are my questions:

2 What three kinds of living things are included in the headings?

3 What do different predators do so they can catch food?

4 What details made the reading more interesting?

5 How does the photo of the tree help you understand what it is?

Desert:

1 Here are my questions:

2 What do plants and animals do so they can survive without much rain?

3 What is special about desert plants that make them extra good for the desert animals that eat them?

4 How do the photos help you understand what is written?
