

## Unit 4: Treatment Methods - Infographic Project

In unit 4, you learned about a variety of treatment methods that can be used for a wide variety of disorders and mental illnesses. Research a treatment method in depth and create an infographic about the method you chose. You must go above and beyond what is listed about your topic in the moodle books.

An **infographic** uses text and images to convey information about a topic. Use a template from MacPages or a Microsoft WORD document (poster, flyer, or another choice) or create your own with text boxes and images. You may need to use several pages instead of one long page. You may also use photoshop or other software you like.

### Research should include:

- Definition/explanation of treatment method
- Theory and history of the method you chose
- What type of illness is the treatment method used to treat and when is it used?
- Risks associated with treatment
- What an individual can expect when going through treatment.
- Results (How effective is this treatment? Look for some statistics.)
- Images
- Interesting facts that you learn about the treatment method you chose.
- Bibliography with a minimum of three credible sources.

When you have added all of your information you must **export or save your document as a PDF** and upload it to the designated assignment folder. This will keep the formatting of your infographic and ensure that I am able to open it.

### Marking Rubric

Treatment	10	8	6	4	2
<b>Content Research (20 marks)</b>	Went above and beyond to research information; used variety of resources to make project effective. Bibliography provided with a minimum of three credible sources. All of the required topics were thoroughly addressed.	Did a very good job of researching. Used more than one source of information. Bibliography included with a minimum of three credible sources.	Basic information on topic provided.	Did not utilize resources effectively; did little information gathering on the topic.	Poorly done. Adequate information was not provided.

<b>Content</b> <b>Organization and accuracy, grammar.</b> <b>(10 marks)</b>	Extremely well organized. Flowed smoothly from one idea to another. Completely accurate. No grammatical errors.	Presented in a thoughtful manner. A few inconsistencies or errors in information. Few grammatical errors.	Somewhat organized and accurate. Grammatical errors present.	Choppy and confusing. Difficult to understand. Facts were misleading. Grammatical errors present.	Poorly done. Difficult to follow. Lacking information.
<b>Visuals</b> <b>Good use of visuals</b> <b>(10 marks)</b>	Visually appealing, easy to read and understand. You have included images in an interesting manner.	Some use of design elements such as clear images	Limited use of interesting visual elements such as charts, graphs, images.	No visuals at all, just text some use of fonts or formatting to create interest.	Text only, or images only. No attempt to use fonts or formatting of any kind.
<b>Effort</b> <b>Overall effect of the presentation</b> <b>(10 marks)</b>	Presentation exceptional. You have gone above and beyond in analyzing and explaining the topic.	You have made an attempt to be creative and show your understanding.	Limited effort to create an interesting document.	Little or no effort to make the project interesting	No effort apparent.
