

Module 5 Lesson 3: Try This 1 - 2

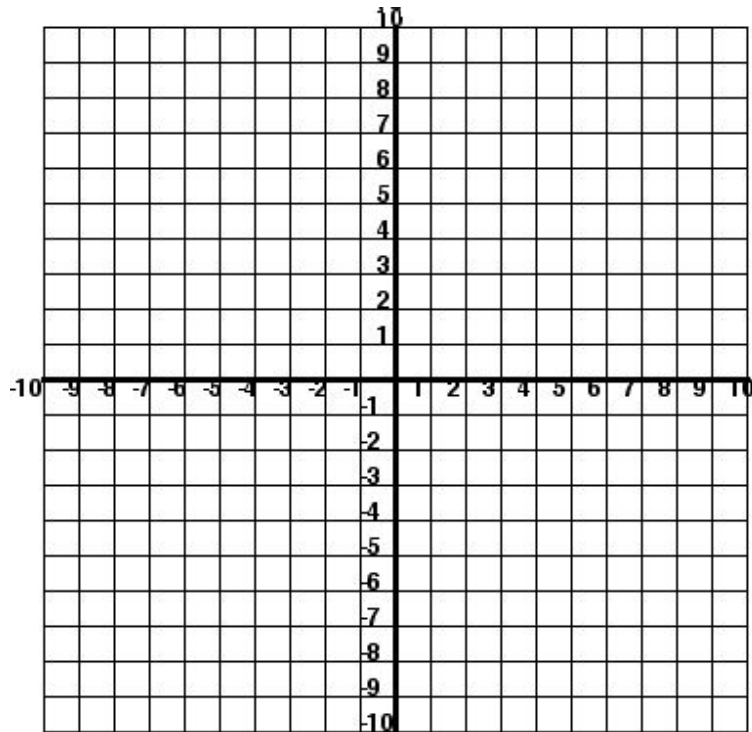

TT 1. Examine the graph shown.

- Identify the slope and the y-intercept.
- Determine the equation of the line.

TT 2. The equation of a linear function is $y = -4x + 5$.

- a. State the slope and the y-intercept of the line.
- b. Sketch the line on graph paper. You may use the Graph Paper Template if you wish.
Attach your completed sketch to the Lesson 3 Assignment.

- c. Explain your strategy for graphing.
