

Module 6 Lesson 1

Try This 4 – 8

Jerome likes to spend his leisure time playing guitar in a band with his friends. He also enjoys skateboarding and is an avid collector of video games. The money Jerome makes at his part-time job helps to support his recreational pursuits. Jerome has a savings account. The account allows him to continue spending up to \$250 even after the balance reaches zero.

The following graph shows Jerome's leisure account balance over 12 months.

Answer the following questions based on the graph.

TT 4. What was the account balance in July?

TT 5. In which month or months was the balance equal to \$150?

TT 6. In which months was the balance negative?

TT 7. During what time periods was the balance decreasing?

TT 8. What was the greatest account balance reached during this year?
