Advice:

Your success on the assignment in this booklet will determine your mark for this module. Your answers give your teacher an indication of your understanding of the course.

- Before attempting to answer the assigned questions, please be sure you have read all the relevant course material and have completed the self-correcting activities in the module booklet.
- Proceed **slowly** and **carefully** through the assignments.
- If you encounter difficulties, review the pertinent section notes.
- If you are still having problems, please contact the course teacher at the Alberta Distance Learning Centre for assistance.
- The marks possible for each individual exercise are indicated.
- Good luck in your studies!

Warning:

- Failure to complete all questions and/or poor responses due to obvious lack of effort may result in your teacher returning the assignment booklet marked “incomplete.” No grading will be awarded until such exercises are completed to the teacher’s satisfaction.
- You are encouraged to discuss the various aspects of the course with others but all work submitted should be your own.
- If there is a large discrepancy between the assignment score and the final exam score, the teacher has the discretion to assign a final mark based solely on the examination results.

Assignment I

Make a drawing showing a group of objects which are indoors or outdoors, real or imaginary. Your eye level should cross all or some of the objects. Some of the objects should overlap and some should have parallel level edges. Use two-point perspective. Add shadows to your drawing. Use a vanishing point for the cast shadows on level surfaces.

Draw on a large sheet of the ledger paper so there is room for your vanishing points some of which may well be out of your drawings' area. Use a ruler to get correct perspective by first drawing lightly pencilled guide lines to the vanishing points. Erase these lines from your finished drawing but not outside the drawing.

Assignment II

On another large sheet of ledger paper draw the same group of objects as in your Assignment I. Draw the objects either above or below your eye level. Use two-point perspective for the level lines and a vanishing point for the vertical lines. Add shadows. Use a vanishing point for cast shadows seen on level surfaces.

Follow the same procedure for this drawing as you did for the drawing in Assignment I. See the second paragraph of Assignment I above.

Use box-like objects for these assignments. Parallel edges work best as well.

Mailing Instructions

Send your drawings in a lesson envelope or tube together with your lesson record form for Lesson 8.
