TOTAL: 21/25 = 84%	5/5	8/10	8/10
 Assessment	<p>Areas of strength: Your use of imagery is well-written, accurate, and entirely relevant. You establish the importance of the setting well.</p> <p>Might I suggest: You clearly appreciated the director's decisions in creating this setting in the film. Be sure that you identify each character's response directly to the setting. Your first sentence of the director's section of the chart works effectively as an introduction there. In the same way, introduce the response generally for each character before you provide your supporting detail.</p>
