 Assessment	<p>Areas of strength: The use of a letter is an effective medium to explore the idea of influence. It allowed Banquo to explore the witches' influence on both himself and Macbeth, and the consequences of that influence. It is believable that he would want to influence his son as well, which gives your letter purpose. Nice choice.</p> <p>Might I suggest: While you did attempt some pretty complex phrasing, be sure that you are in control of the basics. Proofread your work carefully. Banquo was not in the play long. Referring to more specific moments in the play may have provided more effective support and contributed to a more insightful discussion.</p>
