

Stakeholder's Chart /27 marks

Instructions:

Look at the MAP on the next page.

- Consider what is there already.
- As you look at the map, think about everything that is represented and the stakeholder requests.
- Decide which stakeholders receive land, how much land they will receive, and reason for your decision.
- Fill in **all** areas typing between the < > .
 - Be prepared to justify your decisions
- **Note:** Amount of Land Allotted – Each square represents 1 hectare; total map is 768 hectares.

Railway

Boreal Caribou

Map /16 marks

Instructions:

- You will want to be able to write on this map, whether digitally or by printing it off.
- Add the various stakeholders to your map, using your completed Stakeholder's Chart as your guide.
- Add symbols to the existing legend to define each stakeholder.
- On the map, indicate the location and amount of land allotted, using the symbols and colours from your legend.

You will be marked according to the rubric at the end of this assignment; please read the rubric very carefully.

Stakeholder	Land Requested	Reason for Requested Land	Benefit (Economic, Environmental, Social, Cultural)	Considerations	Amount of Land Allotted	Reason for Land Allotment
