

## SCIENCE 7 UNIT B MATERIALS BY LESSON

## **SECTION B1**

Section B1 Introduction			
	tape measure		
	a tall tree		
Lesso	n B1		
	carrot		
	cotton balls		
	water		
	small bowl		
	knife		
Lesso	n B2		
	small potted houseplant with leaves (small enough to fit inside a large pop bottle)		
	2 large empty and dry plastic pop bottles with closed lids (2-litre size)		
	sharp scissors		
	2 plastic plates		
	petroleum jelly (Vaseline™)		
	plastic wrap (Saran Wrap™)		
	water		
	3 clear glass or plastic cups or jars		
	red food colouring		
	blue food colouring		
	spoon		
	2 paper towels		
	cookie sheet or flat shallow pan with a lip		
	2 white flowers such as carnations or daisies		
	knife		

	Lesson B4				
	clear glass or plastic cup				
	tablespoon measuring spoon				
	small Ziploc™ bag				
	water				
	cornstarch				
	iodine (an antiseptic you can find at a drugstore)				
	raw potato				
	paring knife				
	2 plastic or glass cups				
	plate				
	spoon				
	fork				
	salt				
	tall glass cup				
	wooden spoon				
	hot water				
	shallow glass pan				
	paper coffee filter				
	scissors				
	pencil				
	tape				
	rubbing alcohol (isopropyl alcohol)				
	green leaves of one type (You can use outdoor leaves, houseplant leaves, or				
	spinach leaves.)				
Lesso	n B5				
	8 bean seeds				
	4 small glass jars with lids				
	paper towels				
	water				
Lesso	n B6				
_c330 _	glass jar, such as a short relish or jam jar				
	unpeeled small sweet potato (the potato should fit into the jar, but there shouldn't				
_	unpociou sinali sweet potato (the potato should lit linto the jai, but there shouldn't				

	be a huge space between the potato and the edge of the jar.) knife 8 toothpicks water
SECTION B2	
Sectio	n 2 Introduction
	cornstarch
	iodine
	water
	spoon
	measuring spoons
	measuring cups
	3 coffee filters
	plastic funnel
	6 glass cups
	5 eyedroppers
	white paper
	orange juice
	apple juice
	lemon juice
	lime juice
Lesso	n B7
	2 dry pinecones
	wide glass jar
	water
Lesso	n B8
	small handful of sunflower seeds with the shells removed
	mortar and pestle
	water
	plastic wrap
	3 cooking pots
	3 bowls

☐ 2 cups yellow onion skins

Lesson B9   scrap paper or newspaper   large bowl   hot water   tap water   whisk or electric blender   measuring cup   shallow glass or metal pan   piece of window screen or a frying pan splatter screen that fits inside the shallow pan   2 tea towels   wooden popsicle sticks   cooking pot   clean and empty metal can (such as a tuna or tomato can)  SECTION B3  Section 3 Introduction   empty large plastic pop bottle   scissors   soil   juice pitcher   water   glass cup  Lesson B10   a handful of soil from under an evergreen tree   a handful of soil from a field or flower bed   spoon	0	2 cups chopped purple cabbage 4 tbsp ground turmeric root mesh strainer white vinegar 3 or more hard-boiled eggs tongs paper towels

a handful of soil from a field or flower bed		
		•
	_	

_	
	measuring cups
	2 tall glass cups
	white vinegar
	baking soda
	soil
	glass measuring cup or measuring cylinder
	empty 500 mL plastic pop bottle
	3 coffee filters
	water
	sand
	2 funnels
	6 coffee filters
	red powdered drink (like Kool-Aid)
	juice pitcher
Lesso	n B11
	1 empty 500 mL plastic pop bottle
	water
	balloon
	rubber band
	scissors
	1 houseplant with leaves (not a cactus)
SECTION B4	
OLO HON B4	
Lesso	n B12
	2 empty 2 L plastic pop bottles
	scissors
	strip of cotton fabric, 25 cm by 4 cm (You can use part of an old t-shirt.)
	perlite
	liquid fertilizer (such as used for house plants)
	water
	bean seeds
	clear plastic bag
	potting soil
	perlite

large bowl
2 plastic cups
glass or metal pan or tray
measuring cups
measuring spoons
