

SOCIAL STUDIES 9 UNIT 5: SECTION 2: WORKBOOK 19

Exploring Perspectives on Environmental Issues Part 2

There are various perspectives about the environment in our society. In this exercise, you will view short videos that explain the importance of natural resource production, wildlife habitat values, and ecosystem services.

Perspective 2: The environment is important.

Watch the following videos: *Mammal Habitat* and *Fish Habitat*.

Explain the perspective “the environment is important” by describing a reason you and Albertans should care about mammal and fish habitats.
