Reading/Study Guide Unit 1 Activity

Chapter 4, Lesson 1

Answer the following questions. Type your responses between the blue brackets.

1. Do we still use this model of the scientific method?

< >

2. How did each scientist further the work of the scientist before him?

< >

3. What effect did the legalization of dissection (the cutting up of a human body or a plant in order to study it) have on the development of medical knowledge?

< >

4. How did artists use math to make their paintings realistic?

< >

4. Read Question 2 in *Over to YOU* (page 87 of the textbook). What would you do? What are your reasons for making that decision?

< >
