Top 10 Uses of the Internet

Think about how often you use the Internet and for what purposes. Then, rate which areas of the Internet you use the most from 1 to 10 in the table below.

1 = use the least

10 = use the most

For example, if I used the Internet most often for entertainment purposes, I might put a "10" next to it. On the other hand, if I hardly ever use the Internet for online banking, I would put a "1" next to that category. You will use each number from 1 to 10 only once.
