

Exit Pass: Lesson 4

Clouds and the Sun

Complete the following.

Questions

1. It is late in the afternoon, and you hear thunder outside your window. You see very large, tall, dark, puffy clouds. What is the best name for these clouds?

2. What is the best explanation for why Alberta has various seasons?

3. It is a very hot day in the middle of summer, and you are walking across a dry field toward a stream. You notice that the air feels very, very hot, but when you get to the stream, the air feels cooler although there is no breeze. Why does the air feel cooler by the stream?
