

Plant Growth

Name: _____

Date: _____

What are the Various Parts of a Plant and Their Purposes?

Discover: Parts of a Plant

Question

What are the four parts of a plant?

In the introduction of this section, you looked at the four common parts of a plant. Each part has its own function that contributes to the life and growth of the plant. In this activity, you will become more familiar with the **flowers**, **stems**, **leaves**, and **roots**.

Resources

Access the website links from the online course.

- Parts of a Plant Song (website)
- Parts of a Plant Video (website)

Instructions

- 1 In Grade 4 Science, you need to be able to identify four parts of a plant. Watch the **Parts of a Plant** video to find out more about the parts of a plant.
- 2 Apply what you have learned by finding a plant and labelling its parts. Go for a walk outside, or look around the house inside and choose a plant. **Safety Warning: Do not go on a walk without permission from an adult.**
- 3 In the space on the following page, draw a picture of the plant you found or take a picture of it and label all its parts: **roots**, **stem**, **leaves**, and **flowers**. If some parts are not visible, then label the parts you can see.
