Waste & Our World

What is Toxic Waste?

Discover: Toxic Waste Hunt

Question

What kind of toxic waste can I find in my home?

Many things in your home can be toxic waste. These products have warnings on them in the form of symbols called **hazardous waste symbols**. A hunt through your home will allow you to find products that are toxic. When these containers are empty, they must be disposed of in a special way.

Resources

- hazardous waste symbols (website)
- *Hazardous Waste Chart*
- paper
- pencil

Instructions

- 1 Look at the **hazardous waste symbols**. Read the meaning of each and where these symbols can be found.
- 2 Look around your house and garage to find products with these symbols on them.
- 3 Use your pencil and paper to record the product and the symbol on it.
- 4 On the correct place on the **Hazardous Waste Chart**, record all the products you found.
