How Can We Protect Our Natural Resources?

Discover: Edmonton Eco Station

Question

What happens at the Eco Station?

Edmonton has a great facility for recycling all kinds of materials. It is called the **Eco Station**. Learn about what you can bring there and how things can be **reduced**, **reused**, and **recycled**.

Resources

Access the website links from the online course.

- Eco Station Activity (website)
- *Eco Station Chart*

Instructions

- 1 Go to the **Eco Station Activity** and click *Eco Station*.
- 2 Choose a "buddy" and personalize it.
- 3 Use the mouse to roll over the picture and discover the areas of the Eco Station and city programs.
- 4 Get all twenty-three checks on the to-do list on the bottom right of the website page.
- 5 While you are doing the activity, complete the **Eco Station Chart** located on the next page with the seven main categories of items that can be brought to the Eco Station.
- 6 As you roll over the city part of the picture, you will discover other ways that you can reduce, reuse, and recycle in the city. Complete the last part of the **Eco Station Chart** located on the next page with eight examples of how you can reduce, reuse, and recycle.
