Wheels & Levers

How Do Wheels and Rollers Help Move Things From Place to Place?

Exit Pass

Wheels and Rollers.

Complete the Exit Pass.

Answer the following questions:

- 1** What is the difference between a wheel and roller?

- 2** A person who fishes a lot has just bought a boat. The boat is big and heavy, and the person is worried about sliding the boat onto the boat trailer. Would you recommend using wheels or rollers to solve this problem? Explain your answer.

- 3 When you purchase groceries at a store checkout, usually a conveyor belt near the cash register carries your purchases to the cashier. Why do you think stores use conveyor belts at their checkouts?
