---

### Question 3

- a) Give an example (other than the zebra mussel) of a bio-invasive (non-native) species to an area.
  
- b) How did the bio-invasive species get to the new ecosystem?
  
- c) What effects does the bio-invasive species have on its new ecosystem?
  
- d) What can you do to help this situation?

---

**Congratulations! You have completed this practice worksheet.**

Now it's time to carefully compare your answers to the suggested answers in the online course. When comparing, you should feel free to make changes to your answers or make extra notes.

**Keep this practice worksheet for study purposes.** Using practice worksheets as a study tool to review for exams is a great idea.

**If you unsure about any of the questions or answers, or you just want more feedback, share this practice worksheet with your teacher and ask for assistance.** You can do that by emailing the teacher, or by submitting it in the Course Questions Forum in the online course. If you are using this practice worksheet in Google Drive, don't forget to change the sharing settings so that anyone can view it before sending the link to your teacher.
