

Science 9
Unit C: Environmental Chemistry
Lesson 9
Practice Worksheet 33: Biodegradable

Watch the video "[What Materials Biodegrade?](#)".

In the first column of the table, indicate whether each material is biodegradable or non-biodegradable. In the second column of the table, write a short explanation for why the material is classified as biodegradable or non-biodegradable.

Material	Biodegradable or Non-biodegradable?	Explanation for Classification
styrofoam		
plastic bag		
cardboard		
cotton fabric		
lettuce		
aluminum foil		
apple		
glass		
paper		

Congratulations! You have completed this practice worksheet.

Now it's time to carefully compare your answers to the suggested answers in the online course. When comparing, you should feel free to make changes to your answers or make extra notes.

Keep this practice worksheet for study purposes. Using practice worksheets as a study tool to review for exams is a great idea.

If you unsure about any of the questions or answers, or you just want more feedback, share this practice worksheet with your teacher and ask for assistance. You can do that by emailing the teacher, or by submitting it in the Course Questions Forum in the online course. If you are using this practice worksheet in Google Drive, don't forget to change the sharing settings so that anyone can view it before sending the link to your teacher.
