

Science 9
Unit E: Space Exploration
Lesson 9
Practice Worksheet 58: Space Exploration Milestones

Complete the chart below.

You will find the answers by watching the BrainPop video "Apollo Project" and reading page 410 in the *Science in Action 9* textbook.

Space Exploration Milestones		
Milestone	When the milestone happened	What country achieved the milestone first?
Use escaping steam to propel a model pigeon along wires		
Use gunpowder to make rocket-propelled arrows for battle		
Legendary first rocketeer		
Launch an artificial satellite (Sputnik 1)		
Send a small dog in a space capsule to orbit the earth for seven days	November, 1957	
Send a human being into orbit	April 12, 1961	
Send a manned spaceship to the moon		

Congratulations! You have completed this practice worksheet.

Now it's time to carefully compare your answers to the suggested answers in the online course. When comparing, you should feel free to make changes to your answers or make extra notes.

Keep this practice worksheet for study purposes. Using practice worksheets as a study tool to review for exams is a great idea.

If you unsure about any of the questions or answers, or you just want more feedback, share this practice worksheet with your teacher and ask for assistance. You can do that by emailing the teacher, or by submitting it in the Course Questions Forum in the online course. If you are using this practice worksheet in Google Drive, don't forget to change the sharing settings so that anyone can view it before sending the link to your teacher.
