Assignment 3.3.2 Analyzing Sources

Total 0 marks

The following assignment expects students to deconstruct and analyze sources for a formal written source interpretation. You need to clearly communicate your interpretation of **three** sources, and demonstrate your understanding of how each source links to **liberalism**. Then, explain the relationship that exists among all **three** sources. **Make sure you have reviewed the unit pages in the course, as well as read pages 204-212 in your textbook before completing this assignment. This ungraded task is the planning for Assignment 3.3.3.**

This written response is the same format for the Midterm and Final exam, as well as Writing Assignment #1 on the Provincial Diploma Exam.

Please note that this task is NOT for marks. This is meant to help prepare you to write Assignment 3.3.3. If you want feedback prior to submitting 3.3.3, please contact your teacher to preview your work.

Analyze the three sources to complete the assignment.

"Government has three primary functions. It should provide for military defense of the nation. It should enforce contracts between individuals. It should protect citizens from crimes against themselves or their property. When government-- in pursuit of good intentions tries to rearrange the economy, legislate morality, or help special interests, the cost come in inefficiency, lack of motivation, and loss of freedom. Government should be a referee, not an active player."
