

## Exit Pass Lesson 2

### Up in the Air

Complete the following.

#### Instructions

1. Watch this demonstration of [blowing up a balloon inside a bottle](#). Then, answer the questions about what is happening in the video.

#### Questions

---

1. What is inside the bottle at the start of the experiment when the balloon is put into the bottle?

2. Why does the hole in the bottle allow you to blow up the balloon?

3. What happens to the air inside the bottle when the balloon fills the bottle if you keep blowing air into it?
