

## Exit Pass Lesson 4

### Bernoulli's Principle

Complete the following.

#### Instructions

---

1. Use the picture to answer the questions.

#### Questions

---

1. Explain how the shape of a bird's wing is adapted to produce lift. Be sure to include the following in your answer:
  - an explanation of how Bernoulli's Principle works
  - how the air flows over the wing
  - how the regions of low and high pressure create lift?
