

## Activity 1: Spot the Difference

**Can you observe the differences between two crime scene photos?**

To be a good detective or forensic scientist, you must have good observation skills. Can you detect small differences or objects out of place?

Complete the activity, using the links provided (in the lesson and below).

### Resources

---

- **CSI Web Adventures** <http://forensics.rice.edu/en/For-Educators/Online-Activities.html>

### Instructions

---

1. Go to the *CSI Web Adventures* site. Scroll down and click on *Spot the Difference*.
2. Complete the activity.
