Salary

1. The average welder makes approximately $85 000.00/year. What is the monthly gross pay?

   Divide the salary by 12 to get the monthly salary:
   monthly salary = $85 000/year ÷ 12 months
   *   = $7 083.33*

   The average monthly salary for a welder is $7 083.33.

2. Doug is paid a salary of $3845.00 per month as a service advisor for a car dealership. How much does Doug make in one year?

   Multiply the monthly salary by 12 to get the yearly salary.
   yearly salary = $3845.00/ month × 12 months
   *   =$46 140.00*

   Doug's yearly salary is $46 140.00.
