

Lesson 1

Calculating Unit Price

1. A local grocery store sells frozen vegetables for \$1.99/bag. This week, they are advertised at 3 bags for \$5.00. What is the unit price for the 3 bags for \$5.00?

$$\text{unit price} = \text{price} \div \text{number of items}$$

2. A stationery store sells a 2-pack of 8 GB USB memory sticks for \$13.98. What is the unit price of the memory sticks?
