

3.3 ANNOTATED BIBLIOGRAPHY

Create a regular bibliography entry in the space provided. **NOTE:** Make sure your sources are in alphabetical order. Then, **write** an organized, descriptive paragraph under each entry to turn your regular bibliography into an annotated bibliography. In each descriptive paragraph, be sure to do the following:

- **Summarize** the key ideas from each source, or if it's a TV show or song, summarize the storyline.
- **Explain** in a few sentences why each source could **plausibly** have influenced either the playwright, Bradley Hayward, in his writing of *Selfie* or influenced the teenagers from whom Hayward often gets his ideas. If you find that to be difficult, just discuss how the source relates to the play in some clear way.
- **Include** at least one exact quotation from *Selfie* and from each source to support your argument in each paragraph.
