

Personality Tests Project

Research this **topic** and create an **INFO GRAPHIC**

For this project you will be looking at the **JUNG-Briggs/Meyer** and **OCEAN personality tests**:

1. **Research the theory, and history of these two different types of personality tests.**
 - You must summarize this information on your infographic, and explain what the test assesses.
2. **Take two different tests online from the links available in the personality test book in moodle.**
 - Take screenshots, or type up your results in an attractive chart. Add them to your page. Keep in mind you are taking tests to get an idea of what they are like, as a self administered test on the internet is not 100% reliable
3. **Analyze the tests, and indicate your thoughts on their validity and reliability or usefulness.**
 - Explain your results.
 - Include whether you think they are correct about you!
 - Respond to criticisms about each test.

This is the rubric for your project..... Notice that you are required to include charts, graphs and images to help show your understanding..... make it pretty, and interesting.

	5	4	3	2	1	mark
content Personality tests 1. history 2. explantation 3. Theories	Excellent and well explained information on different types of tests including, explanations, history, theory	Some information missing, such as no history, theory or explanations, or only one test discussed.	Very limited information, with no attempt to explain or show understanding	No information		
Your results and analysis	all your results are shown for at least two tests and analyzed, compared, with your opinion on test validity	Results shown for both tests. Some analysis and comparisons	Results shown for only one test and not analyzed	NO results -		
visuals good use of visuals such as charts/images	Visually appealing, easy to read and understand. You have included your results in an interesting manner using images/charts	Some use of design elements such as clear images and charts that help show understanding	Limited use of interesting visual elements such as charts, graphs, images that display information	No visuals at all, just text. No use of fonts, text boxes, or visual aids		
effort overall effect of the presentation	Presentation exceptional. You have gone above and beyond in analyzing and explaining the topic	You have made an attempt to be creative and show your understanding using words and images	Limited effort to create an interesting document, presentation is hard to understand or read	Little or no effort to make the project interesting

The purpose of this project is to create an **INFO GRAPHIC** about personality tests.

An **INFO GRAPHIC** uses text and images to convey information about a topic.
Use a template from Mac - Pages or a Microsoft WORD document (poster, flyer, or another choice) or create your own with text boxes and images. You may need to use several pages instead of one long page. You may also use photoshop or other software you like. [Click here to see examples of an infographic](#) [More examples](#)

Put your own images in.... include **SCREENSHOTS** of your results, and charts that explain each test
Remember to credit images where necessary!
