

Heredity Project

TOPIC a b c

This project is about heredity

and you. You will discuss

1. **Nature Vs Nurture according to current thought. Give evidence! (refer to a twin study etc). explain what each means.**
2. **Discuss things about yourself that are similar to others in your biological families. (Picture evidence required). Indicate what you think is genetic.... and what might be effected by nurture**
3. **Things that appear to be different from your biological families.**
4. **Your opinion on which plays a more important role in an individual's health and behaviour- nature or nurture (give evidence) from your own experience.**

Adopted? read on

The purpose of this project is to create an **INFO GRAPHIC** about Heredity.

An **INFO GRAPHIC** uses text and images to convey information about a topic.

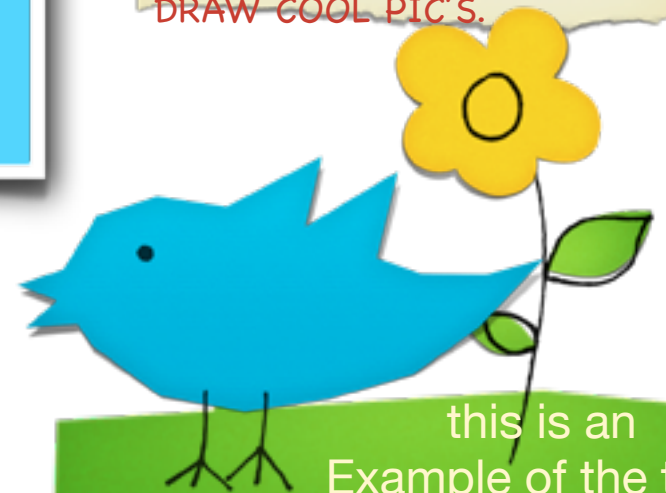

Use a template from pages or a microsoft document (poster, flyer, or another choice) or create your own with text boxes and images. You may need to use several pages instead of one long page. [Click here to see examples of an infographic](#) [More examples](#)

1234 Main Street Anytown, State 54321
T: (123) 456-7890 F: (123) 456-7891
W: www.apple.com/iwork

YOU ARE EXPECTED TO TAKE PHOTOS TO EXPLAIN AND SHOW WHAT THINGS YOU HAVE INHERITED! USE YOUR PHONE CAMERA, OR DRAW COOL PIC'S.

this is an
Example of the type
of pdf **INFO**
GRAPHIC you must create

If you are adopted... you can use this to highlight what things nurture has effected in you. What kinds of behaviors, likes or talents are similar or very different in your family?

EXPORT YOUR COMPLETED WORK AS A PDF FILE BEFORE UPLOADING TO THE ASSIGNMENT BOX

HOW MY ENVIRONMENT HAS AFFECTED ME

THINGS I LEANED FROM MY ENVIRONMENT

Put in interesting and helpful images **PHOTOS...** You are doing this project about you! Credit your own photos like this. photo ©Anna Gaudio

THINGS I INHERITED

This is the rubric for your project..... Notice that you are required to include charts, graphs and images to help show your understanding- make it interesting.

005B Heredity	5	4	3	2	1	mark
content Similarities nature	Excellent and well explained information, you have thought about your own characteristics	you have thought about your own characteristics Some information, missing,	Very limited information, with no attempt to explain or show understanding	Most information missing or incorrect	No information	
content differences nurture	Excellent and well explained information, you have thought about your own characteristics	you have thought about your own characteristicsSome information, missing,	Very limited information, with no attempt to explain or show understanding	Most information missing or incorrect	No information	
visuals good use of visuals and family pics or drawings.	Excellent! Visually appealing. You have included photos, pics to explain the content in an interesting manner	You have used photos to show your ideas. Some use of design elements such as clear images, charts	You have not used photos to show your ideas Limited use of interesting visual elements such as charts, graphs, images.	No visuals at all, just text. some use of fonts or formatting to create interest	text only, or images only. no attempt to use fonts or formatting or any kind	
effort overall effect of the presentation	Presentation exceptional. Above and beyond in analyzing and explaining the topic, you have thought about your own behaviours and heredity	You have made an attempt to be creative and show your understanding	Limited effort to create an interesting document.	Little or no effort to make the project interesting	No effort apparent	

I HAVE STRAIGHT HAIR LIKE MY MOM
